-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species A wherein the measuring chamber is fixed on the pump housing;
- Species B wherein the measuring chamber is fixed in the pump housing;
- Species C wherein the read-out means is on the pump housing;
- Species D wherein the read-out means is in the pump housing;
- Species E wherein the code value is registered during fixing of the measuring chamber;
- Species F wherein the code value is registered after fixing of the measuring chamber;
- Species G wherein the code value carrier means is optical;
- Species H wherein the code value carrier means is electric;
- Species I wherein the code value carrier means is magnetic;
- Species J wherein the code value carrier means is mechanical;
- Species K wherein the code value represents information relating to the measuring chamber;
- Species L wherein the code value represents information relating to the manufacturer;
- Species M wherein the code value represents information relating to the intended mode of operation;
- Species N wherein the code value carrier means contains prominences;
- Species O wherein the code value carrier means contains depressions;

Art Unit: 3746

Species P wherein the locking means is a friction fitting; and

Species Q wherein the locking means is a form fitting.

Applicant is required under 35 U.S.C. 121 to elect one of species A or B, one of species C or D, one of species E or F, one of species G through J, one of species K, L or M, one of species N or O, and one of species P or Q for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

The combination of the elected species shall constitute the embodiment to which the claims shall be restricted.

Currently the species are recited in the claims in an alternative manner. In response to this election requirement, the claims must be amended so as to be limited to the elected species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3746

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

A telephone election has not been attempted in view of the complexity of the restriction requirement.

Any inquiry relating to patent applications in general should be directed to the Patent Assistance Center at 1-800-786-9199.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Kocz, Jr. whose telephone number is 571-272-4830. The examiner can normally be reached on M-Th; 7:00-3:30.
